

Wireless contact interface for connection with external devices – COGVIS

Art.: ERTW0014-4

Description:

Wireless dry contact interface adapted for integration into Cogvis devices.

Technical specification:

- Wireless connection with Nursecare room terminal/controller
- Continuous monitoring of operation
- Enables triggering of different event types
- Frequency band: 2.4GHz (Bluetooth)
- Voltage: 3VDC
- Dimensions of PCB (W: 31mm / H: 27mm / D: 6mm)
- Weight: 10g

- Compliant with CE certification requirements

Pinout:
