

# Wireless controller for NurseCare system

**Art.: ERTW0035 (BTGN in housing)**

## Description:

NurseCare interface in housing for connection of wired and wireless units intended for installation on wall or on ceiling.

## Technical specification:

- Includes connection to room terminal
- Receives signal from NurseCare units for staff protection
- Receives signal from NurseCare nurse call system units
- Includes location functionality
- Installation on wall or on ceiling (the interface is in the special housing)
- Numbers of Inputs: 6
- Numbers of outputs: 6
- Dimensions (W: 58mm / H: 75mm / D: 47mm)
- Weight: 70g
- Frequency: 2.402 GHz -2.480 GHz
- Transmission power 10 mW

- 
- Voltage IN: 24V
  - Voltage OUT: 24V
  - Compliant with CE certification requirements
  - Compliant with DIN VDE 0834 requirements
